ABOUT OMCPL

Oaks Management Consultancy Private Limited (OMCPL) is 30 years old organization in a 31 year-old industry, consistently providing brands with innovative experiential engagement, and meticulously crafted campaigns that serve the brand product and/ or service its utmost purpose. In all these years of working with brands, we realized that one doesn't have to choose between being a 'dreamer' or a 'doer'. And hence, the concepts of Mumbai Shopping Festival, The Worli Festival, The Color Run, and the Chrome Ride – our own intellectual properties – were born to be huge.

OMCPL is an industry veteran powered by young blood. 'Out of the box and straight into the mind space of consumers' is our mantra of innovation. We are conscious innovators and efficient executors specializing in creating festivals properties across communities and interest groups, besides bespoke events.

With the help of our unique experiences and expertise in creative, **content and data-driven strategies we believe in building cross-channel strategy for brands to improve their user experiences and drive better relationships with their audiences across points of contact.**
